| Items | |
|-------------------|---|
| New project ideas | <ul style="list-style-type: none">It was highlighted that the inhaler choice / climate change projects would no longer be fundable – a previous REG proposal was not funded.A 'geographical migration' project was discussed, using CPRD / OPCR to identify within-UK migration via changes in practice postcode. Differences in outcomes based on migration e.g., urban to rural, rural to urban, big cities etc. due to exposures in different allergens / pollution would be evaluated. |
| Action Points | Potential funders for a 'migration' project will be identified. If funders are identified, a research proposal will be written. Helena will introduce former colleagues to REG. |
