

March 2023 WORKING GROUP MEETING AGENDA: Databases and Coding

Meeting details	
Location	Lisboa Marriott Hotel (Berlin B-room) + MS Teams
Meeting date	16 th March
Meeting time	13:00 WET
Chair(s)	Jennifer Quint
Attendees	Sinthia Bosnic-Anticevich Joan S Soriano Nicolas Roche Omar Usmani Rinat Ribalov (TEVA) Mark M Edwards (TEVA) Margee Kerr (OPRI) Valeria Perugini
Objectives	
1	Update on current projects

Items	
Update on current projects	<p>1-STANDOUT: standardisation of respiratory definitions and outcomes using RWD.</p> <p>Jenni informed the WG members that (unfortunately!) the grant application -STANDOUT: standardisation of respiratory definitions and outcomes using RWD- submitted to the ERS-CRC 2022 was rejected. She shared the feedback received from the ERS Science Council and Executive Committee with others and commented on the strengths and weaknesses of the study identified by the reviewers. Overall, the feedback wasn't too negative, and the WG members found this to contain valuable comments useful for the resubmissions of the study for new funding opportunities. Nicholas Roche, one of the ERS-CRC reviewers, strictly encouraged Jenni to do so, as the rejection of the study was purely due to the number of applications received, which was higher than expected.</p> <p>ACTION: AZ will fund the study. The partners involved in the study will discuss next steps in the coming weeks.</p>

2-Towards Optimum Reporting of Pulmonary Effectiveness Databases and Outcomes (TORPEDO) Study- Phase 2.

Torpedo-phase 2 is still under discussion. WG members are unsure how to move forward with this study as supporters couldn't be interested in funding and-or goes unpublished (as Torpedo-phase 1!).

ACTION: Putting the project on hold.
