

WORKING GROUP MEETING MINUTES: Technology Working Group

26th March 2021

Meeting details			
Meeting location	MS Teams online		
Meeting date	Friday 26 th March 2021		
Meeting time	12.00-13.00 CET		
Chair(s)	Ron Dandurand		
Attendees	<table border="0"> <tr> <td>Ron Dandurand Sinthia Bosnic-Anticevich Ted Popov Dermot Ryan</td> <td>Omar Usmani Vicky Xepapadaki Graham Lough</td> </tr> </table>	Ron Dandurand Sinthia Bosnic-Anticevich Ted Popov Dermot Ryan	Omar Usmani Vicky Xepapadaki Graham Lough
Ron Dandurand Sinthia Bosnic-Anticevich Ted Popov Dermot Ryan	Omar Usmani Vicky Xepapadaki Graham Lough		
Objectives			
1	Update on projects		
2	Prioritisation of projects and future direction		

Items	
Update on projects	<p><u>The Novartis Breezhaler project was discussed.</u></p> <ul style="list-style-type: none"> Final proposal has been developed and submitted to Novartis. Additional documentation provided by Novartis is being completed.
Prioritisation of projects and future direction	<p><u>The future of a possible REOM device project was discussed.</u></p> <ul style="list-style-type: none"> Ron outlined his projects using the REOM device and associated interactive dashboard, highlighting the need for home monitoring post-COVID, and sought suggestions for expansion and further funding. It was agreed upon that seeking an EU Horizon grant would be the best grant (€4-5 million), but this needs to be led by an EU / UK institution not a company, so cannot be lead by REG. It was suggested that a co-professorship with Ron and an EU / UK university would work. The grant proposal would take months of work to ensure all different work packages in the grant are covered.
Action Points	<ul style="list-style-type: none"> Graham to finish Novartis documentation and update group if / when Novartis funding agreement secured.

- | | |
|--|--|
| | <ul style="list-style-type: none">• Ron to reach out to REG working group members to arrange a chat to move the REOM project forwards and develop ideas. |
